

SEASON DOSSIER

ELEVENTH SEASON, SAME PASSION AS ON DAY ONE.

We are entering our eleventh season with the same enthusiasm and energy with which it all began. We believe that this life—and our project—is a long distance race, not a sprint, so we feel that the best is yet to come.

Our formula is simple but powerful: daily work, constant innovation, and continuous improvement in the quality of every action and project we undertake.

Our driving force is our community—being part of the life around us and standing by each other through both good and challenging times. This year has been especially difficult for some of our members, and we hope this small bubble can help them recover and heal.

Once again, we want to thank those who have been walking alongside us for many seasons, as well as those who are joining us for the first time. The season that begins on September 1 promises to be vibrant, full of challenges and moments to enjoy together.

Thank you for being part of our history...and for accompanying us in everything that is yet to come. See you at your club!

An aerial photograph of a tennis club during sunset. The sun is low on the horizon, casting a warm, golden glow over the scene. In the foreground, there are several tennis courts with blue and orange surfaces. The club is surrounded by dense greenery and trees. In the background, a large hill or mountain rises, and a body of water is visible on the left side. The overall atmosphere is serene and scenic.

WE ARE
NOT JUST
A TENNIS
CLUB.
WE ARE
SO MUCH
MORE.

IQL GYM

The gym is designed to help you disconnect from your daily routine and reconnect with yourself. Now, in addition to being the best complementary activity before or after your tennis and paddle tennis training sessions, it is also an ideal alternative for those looking to stay in shape without a racket. We are incorporating new personal training programs, both group and individual, guided by our physical training team, so that each session is effective, dynamic, and tailored to your goals.

SWIMMING SCHOOL AND MATERNITY SWIMMING

At our school, learning to swim is much more than just a skill: it is a priority for children's safety and well-being. Swimming strengthens the heart, improves flexibility and posture, and prevents problems such as childhood obesity. For the little ones, we offer baby swimming and aquatic stimulation based on psychomotor skills, creating a safe and warm environment (32° saltwater pool) where babies can explore and play freely alongside their parents, always respecting their individuality and pace.
